Overview

European capital markets in Q1 2021 continued their marked recovery from the steep losses of a year ago, amid hopes of a global economic recovery, the roll-out of Covid-19 vaccines, and the end of Brexit uncertainty.

- ✦ Equity market capitalisation and the number of listed companies increased both quarterly and year-on-year.
- ✦ IPOs and IPO investment flows experienced large increases, continuing their Q4 trend.
- ✦ Equity trades and turnover had a quarterly surge but declined year-on-year.
- ✦ Options and futures trading rose on a quarterly basis but have decreased from this time last year.
- ✦ Securitised derivatives turnover grew quarterly but fell year-on-year.
- ✦ ETFs and UCITS turnover significantly increased this quarter but still saw a year-on-year decline.
- ✦ Bonds turnover has soared since last quarter.
