Overview

Equity

Equity markets overall continued to grow compared to 2020 and Q2 2021, with the exception of IPOs and equity turnover.

- Market capitalisation and the number of listed companies continued to increase both quarterly and year-on-year.
- IPOs and IPO investment flows decreased compared to the previous quarter, following the general trend observed in Q3 over the years. There have been more IPOs this quarter, however, compared to the same one last year.
- SME markets continued their growth in terms of new listings and market capitalisation.
- Equity turnover experienced a slight decline compared to the previous quarter, but both trades and turnover increased compared to the previous year.

Derivatives

Derivatives trading has overall increased compared to 2020, except for forex. Quarter-on-quarter trading shows varying trends.

- Aggregated options and futures, as well as bond options and futures trading, has decreased compared to the previous quarter but increased from the previous years.
- Stock / Index options and futures trading, as well as commodities derivatives, have increased both compared to the previous quarter and year.
- Foreign exchange derivatives trading has declined when comparing to Q2 2021 and the year 2020.

Other instruments

Other financial instruments turnover has increased compared to the previous year and quarter, with the exception of bonds trading.

- Securitised derivatives, ETFs and UCITS turnover experienced increases comparing quarter-on-quarter and year-on-year.
- Bonds turnover has declined compared to the previous quarter and year.
