# Overview

## Equity

Equity markets in 2021 overall experienced growth compared to the previous years.

- Market capitalisation and the number of listed companies continued to increase both quarterly and year-on-year. Investment flows, however, decreased.
- IPOs and IPO investment flows increased compared to the previous quarter. There have been fewer IPOs in Q4 2021 compared to the same period in 2020, but their investment flows are larger.
- SME markets continued their growth in terms of new listings and market capitalisation, in particular when compared with 2020.
- Equity turnover of FESE members grew compared to the previous quarter and year. On a larger scale, beyond FESE members, equity trading turnover has decreased.

## Derivatives

Derivatives trading has increased compared to 2020.

- Aggregated options and futures, stock and index options and futures, bond options and futures, commodities derivatives and foreign exchange derivatives trading has increased compared to the previous quarter and year.

## Other instruments

Other financial instruments turnover has shown increased figures when comparing to the previous quarter and particularly comparing to the previous year.

- Securitised derivatives, ETFs and UCITS turnover experienced increases comparing quarter-on-quarter and year-on-year.
- Especially bonds turnover has grown compared to the previous quarter and year.
